### **EXAMINER'S AMENDMENT/COMMENT**

1. The drawing is objected to because the cross hatching for the soil formation is not shown in Fig.2. Appropriate correction is required.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **IN THE TITLE**

"Method of Construction" has been changed to -- Method for Constructing Foundation

--.

#### **IN THE SPECIFICATION**

Page 1, line 5: -- This application is a national stage of PCT/AU03/00274 filed March 7, 2003 and based upon AUSTRALIA PS 0960 filed March 7, 2002 under the International Convention. -- has been inserted under the subheading, -- CROSS REFERENCE TO RELATED APPLICATION --.

3. The following is an examiner's statement of reasons for allowance: The prior art taken as a whole does not show nor suggest a method of constructing a foundation comprising the steps of

positioning at least one support member, forming a foundation next to the support member, excavating/underpinning beneath the foundation to a predetermined depth and lowering the formed foundation to the predetermined depth and as specifically called for the claimed combinations of the foundation structure and associated method steps.

The closest prior art, Messenger (US 3,040,411), does not include the method step of dropping the formed foundation to the prescribed/predetermined depth as required by the claim. Instead, Messenger teaches the method of raising the formed foundation/floor structure and there is no motivation absent the applicant's own disclosure, to modify the Messenger reference in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other references cited disclose a method and structure for underpinning, an earth engineering apparatus and method, and underpinning of a wall.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jong-Suk (James) Lee whose telephone number is (571) 272-7044. The examiner can normally be reached on 6:30 am to 3:00 pm, Monday thru Friday.
